

James P. Allen

Tree preservation begins in the planning stages of development. This insures the long term survival of the resource.

Our staff of professional consulting arborists can provide services to protect trees from the impacts of planned development.

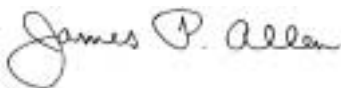

Our services include:

- resource evaluations and plan review
- tree surveys and impact assessments
- tree preservation/maintenance plans
- interfacing with regulatory agencies

At James P. Allen & Associates, we've been dedicated to the preservation of trees for over 29 years. From a small project to a multi-unit land development; we can do it.

If you have questions or would like an appointment, please call us at 831.426.6603.

Sincerely,

*Make a
commitment
to conserve your
"growing investment"*
